

OJJAM

IP
Where expertise meets evolution

ABOUT US

We are a firm founded by Juan Carlos Ojam, Mariel Chichisola, Camila Sirianni and Paula Galván, a team that combines decades of experience in intellectual property with the energy, innovation and fresh perspective of a new generation.

We take pride in uniting tradition and transformation.

Ojam IP was born on the solid foundation of a team that has worked together for many years, sharing values, clients and high standards. Today we evolve toward a structure that reflects who we are and what we believe in:
collaboration, diversity, professional rigor and technological agility.

We are committed to providing first-class legal services, distinguished by their efficiency, personalization and responsiveness. **Our clients are at the center of everything we do** – and we are ready to continue moving forward with them, accompanying change and building the future of legal practice.
Where excellence meets evolution.

OUR MISSION AND PURPOSE

We exist to enhance innovation, creativity and progress, protecting the ideas that shape our world. Our mission is to provide first-class legal services with excellence, commitment and agility – combining experience, innovation and a deep sense of responsibility toward our clients and our team.

OUR VISION

To build a law firm that redefines the way of working – without rigid structures, guided by a shared purpose and by real connections. We envision a community where people are valued for who they are and how they work best. A firm where inclusion, diversity, flexibility and enjoyment are not aspirations, but part of daily life.

At Ojam IP we believe in working with freedom, owning our time and energy, and delivering results that speak for themselves. We are a new generation of professionals committed to excellence, among ourselves and to building a workplace that we feel is our own..

TRIPLE IMPACT

Legal excellence with impact.

We actively seek to create a positive impact on the community, the planet, and the way we work together.

At Ojam IP, we know that the value we generate as a firm isn't measured only by the services we provide, but also by the footprint we leave behind, on people, on the environment, and within our own team.

COMMUNITY

*We use our skills and time to promote access to justice, education, and inclusion. Through **pro bono work, educational initiatives**, and long-term community engagement, we support causes that matter — like our ongoing collaboration with a **rural school in Santiago del Estero** and partnerships with local institutions.*

PLANET

*We are committed to integrating sustainability into every layer of our operations. We reduce our environmental impact through smart paper use, **recycling programs with local cooperatives**, and **carbon offsetting** for business travel. We believe productivity and care for the environment can, and should, go hand in hand.*

TEAM

*We foster a workplace built on **collaboration, trust, and shared learning**. Our flat structure promotes participation, while our internal programs support the development of **soft skills** and **team integration**. From legal training to hands-on activities we believe growth also happens in the small moments that connect us.*
